Record News

Depeche Mode have just released another single entitled 'Shake the Disease' c/w 'Flexible'. Both sides were written by Martin and it was recorded in Berlin. There will be a Ltd. 12" Edition (as well as the normal 12" which is already on sale) available, this will include, on the A side a ReMix of 'Shake the Disease' by John Fryer, and on the B side a ReMix with additional percussion of 'Flexible' by Bert Bevin, with a weird ReMix by Gareth Jones of 'Something to Do' and also a live version of 'Master and Servant' recorded last year in November at the Basle Sporthalle in Switzerland. An excellent package!

A new album is planned for release after Christmas.

A live video is currently available through most shops entitled 'The World We Live In And Live In Hamburg'. It was recorded in Hamburg on December 9th and is on sale through 'Virgin Videos' for £19.95.
